

20 Goal Setting Planner

A grounded way to turn a meaningful intention into small actions and supportive check-ins.

Clarify why the goal matters, define evidence, plan steps, anticipate obstacles, and review kindly.

Name the Direction

Choose a meaningful outcome without borrowing someone else's definition of success.

The goal I am considering is...

It matters because...

This goal supports the value of...

I will know it matters to me when...

A goal I am not choosing right now is...

Make It Specific

Define scope, evidence, and a realistic time horizon.

By the date... I will...

The visible evidence will be...

My minimum successful version is...

The first milestone is...

I will measure progress by...

Map the First Steps

Break the goal into actions that can begin this week.

Action one takes... minutes and happens on...

Action two requires...

The first item or resource I need is...

The person or place that can support me is...

A calendar reminder or cue will be...

Plan for Obstacles

Expect friction and decide your response in advance.

The most likely obstacle is...

If that happens, I will...

My backup, smaller action is...

A boundary I need to protect is...

I will ask for help from... by...

Build Accountability

Choose a check-in that encourages honesty rather than pressure.

I will review progress every...

The person or group I can update is...

The question I want them to ask is...

A reward or celebration that fits my values is...

If I miss a step, I will restart by...

Reflect and Evolve

Use learning to refine the next cycle.

Progress I can prove is...

What made action easier was...

What I need to simplify is...

What I learned about the goal is...

My next milestone or revised direction is...

Use and safety note

Set goals that respect health, access, time, and safety; revise or pause when circumstances change rather than treating rest as failure.
